Expected Max Collisions = 6

Expected Collision Distribution for Container Size: 512

Collisions	# Times
0	187
1	198
2	84
3	31
4	8
5	3
6	1

Actual Max Collisions = 8
Actual Collision Distribution(variable between runs)

Collisions	# Times
0	247
1	122
2	80
3	36
4	19
5	4
6	3
7	0
8	1

The phone based hash has the potential for more collision depth than traditional random hash functions
